Bicycling Law

Bicyclists count as traffic, so traffic laws apply to you, too. Here are some highlights:

- Helmets – required for those 16 and younger (but strongly recommended for everyone, all of the time).
- Lights – starting at dusk, a front white light and rear red reflectors are required, but lights in back are also highly recommended.

Sharrows

Shared Roadway Bicycle Markings, or Sharrows, are intended to alert other road users to expect bicyclists to occupy travel lanes, and to help bicyclists position themselves away from parked cars to avoid being struck by suddenly opened car doors.

“Shared Road” Roadways

The “Shared Road” bike routes indicated on this map are typically without marked bike lanes but are typically in low-traffic areas that are conducive to less congested, more comfortable cycling.

The Metro Government of Nashville and Davidson County and its representatives do not assume liability for bicyclists traveling upon routes shown in this map. Cyclists should use caution and obey the rules of the road when riding on public roads. Many of these rides occur on narrow roads without shoulders. Safe route selection includes consideration of motor vehicle, bicycle, and pedestrian traffic and roadway or route conditions, their level of change, and the presence of hazards in traffic, weather, time of day, and any potential hazards. Potential hazards include, but are not limited to, pavement patches, railroad tracks, utility covers, survey monuments, potholes, and reckless or intoxicated motorists, which are commonly found on public streets. Accordingly, route users should exercise due vigilance and caution under other conditions and irregularities. Users of this cycling map are responsible for their own safety and use these routes at their own risk.
